АО	P11	Initial Airport Operations Plan							
REG	ASP	MIL	MIL APO USE INT IND NM MET AIS USP						USP

## Subject matter and scope

The Airport element that reflects the operational status of the Airport and therefore facilitates Demand and Capacity Balancing is the Airport Operations Plan (AOP). The Airport Operations Plan connects the relevant stakeholders, notably the Airspace Users' Flight Operations Centre (FOC). It contains data and information relating to the different status of planning phases and is in the format of a rolling plan, which naturally evolves over time.

The Airport Operations Plan is a single, common and collaboratively agreed rolling plan available to all airport stakeholders whose purpose is to provide common situational awareness and to form the basis upon which stakeholder decisions relating to process optimization can be made.

Roles and responsibilities are extensively detailed in Deliverable D07 - OFA 05.01.01 Operational Service and Environment Definition - Edition: 00.03.00.

Note: The data sharing between the Airport Operations Plan and the Network Operations Plan is addressed by objective FCM05.

NOTE FOR MILITARY AUTHORITIES: It is the responsibility of each military authority to review this Objective IN ITS ENTIRETY and address each of the SLoAs that the military authority considers RELEVANT for itself. This has to be done on top and above of the review of "MIL" SLoAs which identify actions EXCLUSIVE to military authorities.

## Applicability Area(s) & Timescale(s)

Applicability Area 1 (PCP airports)	MP Level 3 Imp	lementation Pla	an - Annexes	
Applicability Area 2 (Non-PCP Airports)	MP Level 3 Imp	lementation Pla	an - Annexes	
Timescales:		From:	Ву:	Applicable to:
Initial Operational Capability		01/01/2015		Applicability Area 1 (PCP airports) + Applicability Area 2 (Non-PCP Airports)
Full Operational Capability			01/01/2021	Applicability Area 1 (PCP airports) + Applicability Area 2 (Non-PCP Airports)

# Stakeholder Lines of Action (SLoAs)

SloA ref.	Title	From	Ву
AOP11-ASP01	Provide the required information to the AOP	01/01/2015	01/01/2021
AOP11-APO01	Set up and manage the Airport Operational Plan	01/01/2015	01/01/2021
AOP11-APO02	Provide the required information to the AOP	01/01/2015	01/01/2021
AOP11-APO03	Train all relevant personnel	01/01/2015	01/01/2021
AOP11-USE01	Provide the required information to the AOP	01/01/2015	01/01/2021

Description of finalised and deleted SLoAs is available on the eATM Portal @ https://www.eatmportal.eu/working/depl/essip\_objectives

## **Expected Performance Benefits**

Safety:

Improved through optimal use of facilities and services, better use of airport and ATFM slots.

Operational Efficiency:

Improved system efficiency and predictability. Significant decrease in fuel burn through better timed operations. Lower airspace user operating cost due to improved punctuality.

Cost Efficiency:

Environment:

Capacity:

Reduced noise and emissions due to limiting engine ground running time due to better timed operations.

Security:

AOP11-ASP01	Provide the required information to the AOP	01/01/2015	01/01/2021				
Action by:	ANS Providers	·	·				
Description & purpose:	Provide and maintain AOP elements (core and supporting) while local agreements. This information may include available Airspairports, military training areas, etc.)						
Finalisation criteria:	1 - The AOP information under its responsibility is provided and	d maintained, ensuring the a	ppropriate quality				
		From:	By:				
AOP11-APO01	Set up and manage the Airport Operational Plan	01/01/2015	01/01/2021				
Action by:	Airport Operators	'	'				
Description & purpose:	Set up an AOP containing the following categories of information:  - Traffic demand  - Airport capabilities  - Airport operational context  The information available in the AOP should be separated in two AOP content blocks to distinguish between information fields to be implemented at every airport (core information) and the set of information that can be included depending on local agreements (supporting information).  The information requested in the AOP will be provided accorded to various sources. However, at each airport it must be established through local agreement which actor is the best positioned to provide each AOP content field. Those information sources can be the different airport stakeholders.

AOP11-APO02	Provide the required information to the AOP	01/01/2015	01/01/2021				
ction by:	Airport Operators	'	'				
escription & purpose:	Provide and maintain and AOP elements (core and supporting) which are under the responsibility of the Airport Operator, based on the local agreements. This information includes (but is not limited to):  - Possible airport configurations  - Unforeseen / Temporary aerodrome constraints  - Restrictions regarding aerodrome resources.  - Information sharing between airport partners  - Airport usage and any restriction rule.  - Operational capacity of airport resources.  - Airport resources availability and allocation plan.  This SLoA also covers other stakeholders active in the airport environment (e.g. Ground Handling Agents) which may feed the AOP according with the local agreements.
