

METEO-04d — Generate and provide MET information relevant for Airport and final approach for at shortest notice (less than 3 minutes 'time to decision' horizon)

ATM-MET system acquiring, generating, assembling and providing Meteorological (MET) information to the SWIM network and in a SWIM compliant manner to support all actors in Airport and final approach related operations and consistent with information relevant for other operational user environments such as En-route and Network operations. The system capability mainly targets a 'time to decision' horizon less than 3 minutes.
