

AUO-0220 — Linking of SBTs pertaining to the same aircraft

When this information is made available by the Airspace User, linking of SBTs will allow the identification of a connecting arrival flight (previous flight) with a departure flight (next flight) which will use the same aircraft. The identification of connecting flights will contribute to the improvement of the Airport-CDM and DCB processes.

Rationale -

Forecast V3 end date -

Benefits start date (IOC) 31-12-2026

Full benefits date (FOC) 31-12-2032

Current Maturity Level V1

Solution Data Quality Index -

Current Maturity Phase R&D

Scope -

Release -

PCP Status -
