

CM-0307 — Sector Team Operations Adapted to New Responsibilities in En-route, Single Person Operation

As a complement to the Multi Sector Planning operation where a single Planner Controller is supporting several Tactical Controllers, in certain circumstances the role of planning and execution for an En Route sector can be undertaken by a unique controller, the SPO (Single Person Operator).

Rationale	New opportunities for the utilisation of operational staff are offered along with the increasing sophistication of ATC support tools. This will provide improvement in cost effectiveness.
