

Solution PJ.16-04 — Workstation, Controller productivity

Workstation, Controller Productivity sees the development of new human machine interface (HMI) interaction modes in relation to other SESAR Solutions for air traffic control centers and towers. This includes new user interface technologies, such as automatic speech recognition, multi-touch inputs, attention guidance, user profile management systems, and qualification of virtualization of the CWP.

Program SESAR 2020 Wave 1

Need for coordination Local/Network
