

AOM19.1 ASM tools to support A-FUA

Stakeholders <ul style="list-style-type: none"> • ANSPs • Network Manager 	FOC <u>12/2018</u> Estimated achievement 12/2018	Applicability Area All ECAC States except Armenia, FYROM, Malta, Luxembourg and Moldova
--	--	---

SESAR Key Features	Optimised ATM Network Services
PCP Sub-Functionality	S-AF3.1 ASM and Advanced FUA
ICAO ASBU	B0-FRTO, B1-FRTO, B1-NOPS
OI Steps	AOM-0202, AOM-0202-A
CAPEX	BLUE-MED, DANUBE, FABEC, UK-IR

Main 2016 developments

The objective takes over some implementation actions from its predecessor in the previous MPL3 edition (AOM19), however both content and deadline for these objectives are different so comparison with previous years might not be relevant. The objective is an important enabler for the PCP sub-functionality 3.1 and is progressing within the agreed timelines. Eight (8) States have already completed it (BE, CH, CY, DK, EE, HU, MAS and RO) and all others within the applicability area have reported plans to implement by Dec/2018 except two (2) (SE, TR), which are still considering the need for its implementation. Although some States are implementing local solutions, a majority of them rely on LARA (Local and sub-Regional ASM Support System) and for these, the information provided by States is in line with the information available in EUROCONTROL, also with regards to the interoperability of the ASM tools with NM systems .

AOM19.1 – ASM support tools to support A-FUA
