FCM05		Interactive Rolling NOP						
REG	ASP	MIL	APO	USE	INT	IND	NM	

## Subject matter and scope

The first steps of the interactive rolling NOP were already implemented through the deployment of the NOP portal (through n-CONNECT platform and B2B services). Further information and data have been deployed to support the interactive approach to the NOP (e.g. ADR, DDR2,...) and the access to the NOP data will be more and more available through B2B services. Most of the enablers required are expected to be gradually deployed over this period.

The scope of this Implementation Objective consists in the implementation of a platform that uses the state-of-the-art technologies for creation of a virtual operations room for the physically distributed European ATM network operations, in support of the collaborative NOP. This platform will support the network collaborative rolling processes from strategic to real-time operations, including capabilities for online performance monitoring integrated and feeding back into the collaborative network planning. Also, the platform provides access to post-operational data for offline analysis and performance reporting.

Information and dialogue tools shall be accessed via an ATM Information Portal. Access to information is done in a secure way, tailored according the stakeholders needs and subject to access control rules, so that only those who have an operational need to access particular information are able to do so.

In addition, this Implementation Objective also covers the NM system upgrades related to AOP-NOP B2B interface for data exchanges with selected airports.

**NOTE FOR MILITARY AUTHORITIES:** It is the responsibility of each military authority to review this Objective IN ITS ENTIRETY and address each of the SLoAs that the military authority considers RELEVANT for itself. This has to be done on top and above of the review of "MIL" SLoAs which identify actions EXCLUSIVE to military authorities.

**NOTE:** The deleted SLoAs ASP01 and ASP02 appear since the 2016 Edition in objective AOM19.1. The deleted SLoA NM11 is addressed by the objective INF08.1

## Applicability Area(s) & Timescale(s)

<b>Applicability Area</b>	All ECAC+ States except: Armenia, Luxembourg, Maastricht UAC, Moldova, Morocco, North Macedonia		
<b>Timescales:</b>	<b>From:</b>	<b>By:</b>	<b>Applicable to:</b>
Initial operational capability	01/09/2013		Applicability Area
Full operational capability		31/12/2021	Applicability Area

### Stakeholder Lines of Action (SLoAs)

SLoA ref.	Title	From	By
<b>FCM05-REG01</b>	Review, as appropriate, the safety argument of the changes to the ASM system, supporting the implementation of interactive Rolling NOP by the NM	<b>DELETED</b>	
<b>FCM05-ASP01</b>	Upgrade the automated ASM support system with the capability of AIXM 5.1 B2B data exchange with NM	<b>DELETED</b>	
<b>FCM05-ASP02</b>	Perform an integration of the automated ASM support systems with the Network	<b>DELETED</b>	
<b>FCM05-ASP03</b>	Produce a safety assessment on the upgrade of automated ASM support systems to the AIXM 5.1 capability	<b>DELETED</b>	
<b>FCM05-ASP04</b>	Develop and implement ATFCM procedures for interaction with the NOP	01/09/2016	31/12/2021
<b>FCM05-ASP05</b>	Train the relevant personnel for interaction with the NOP	01/09/2016	31/12/2021
<b>FCM05-APO01</b>	Provide the required data to the Network Manager for DDR	01/09/2013	31/12/2017
<b>FCM05-APO02</b>	Perform the integration of the AOP with the NOP	01/01/2015	31/12/2021
<b>FCM05-USE01</b>	Provide the required data to the Network Manager for DDR	01/09/2013	31/12/2017
<b>FCM05-NM01</b>	ADR to provide, common and consolidated view of European airspace data containing both static and dynamic digital data	<b>FINALISED</b>	
<b>FCM05-NM02</b>	Upgrade NM system for external user access to the airspace data repository (making restrictions available in AIXM 5.1 format via B2B)	<b>FINALISED</b>	
<b>FCM05-NM03</b>	Equip Airspace management system with tools for collection of airspace data (Interoperability with ASM tools in AIXM 5.1)	<b>FINALISED</b>	
<b>FCM05-NM04</b>	Perform an integration of ASM support systems with the Network	<b>FINALISED</b>	
<b>FCM05-NM05</b>	Upgrade NM systems to allow the access of interested users to the Demand Data Repository	<b>FINALISED</b>	
<b>FCM05-NM06</b>	Implement FCM Procedures for on-line access/update to the NOP and notification of updates	<b>FINALISED</b>	
<b>FCM05-NM07</b>	Upgrade NM systems to allow FMP to remote access simulation via the NOP Portal (create of simulations and assessment of the results) and in a second step to edit scenario measures (regulation, config, capacities,...) prior to running simulations	<b>FINALISED</b>	
<b>FCM05-NM08</b>	Flight Plan filing capability directly via the NOP portal	<b>FINALISED</b>	
<b>FCM05-NM09</b>	Develop AOP/NOP interfaces	01/01/2015	31/12/2018
<b>FCM05-NM10</b>	Integrate the AOPs into the Network Operation Plan	01/01/2016 31/12/2021	31/12/2021
<b>FCM05-NM11</b>	Develop Network Manager B2B services	<b>DELETED</b>	
<b>FCM05-NM12</b>	Enhance the NM technical platform and services	01/09/2016	31/12/2021
<b>FCM05-NM13</b>	Implement ATFCM procedures	01/09/2016	31/12/2021

Description of finalised and deleted SLoAs is available on the eATM Portal @ [https://www.eatmportal.eu/working/depl/essip\\_objectives](https://www.eatmportal.eu/working/depl/essip_objectives)

### Expected Performance Benefits

<b>FCM05</b>	<b>Interactive Rolling NOP</b>
--------------	--------------------------------

<b>Safety:</b>	Enhanced by improved sharing of the network situation.
<b>Capacity:</b>	Small benefits through improved use of the airport and airspace capacity resulting from a better knowledge of the airspace availability and of the traffic demand.
<b>Operational Efficiency:</b>	-
<b>Cost Efficiency:</b>	Enhanced through use of cost efficient tools to access network information instead of expensive local tools or procedures.
<b>Environment:</b>	-
<b>Security:</b>	-

### Detailed SLoA Descriptions

<b>FCM05-ASP04</b>	<b>Develop and implement ATFCM procedures for interaction with the NOP</b>	<b>From:</b> 01/09/2016	<b>By:</b> 31/12/2021
<b>Action by:</b>	<b>ANS Providers</b>		
<b>Description &amp; purpose:</b>	The SLoA addresses the definition, validation and deployment of the new/changed operational procedures pertinent to the interaction with the NOP.		
<b>Supporting material(s):</b>	EUROCONTROL - NOP Portal User Guide - Edition 21.5-119 Url : <a href="https://www.eurocontrol.int/sites/default/files/content/documents/nm/network-operations/user-guides/nop-portal-user-guide-current.pdf">https://www.eurocontrol.int/sites/default/files/content/documents/nm/network-operations/user-guides/nop-portal-user-guide-current.pdf</a> SJU - SESAR Solution 20: Data Pack for initial collaborative Network Operations Plan (NOP) Url : <a href="https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop">https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop</a>

<b>ATM Master Plan relationship:</b>	<a href="#">[NIMS-14b]-Demand Data Repository Phase II</a>		
<b>Finalisation criteria:</b>	1 - Airport slot information provided to DDR.		

<b>FCM05-APO02</b>	<b>Perform the integration of the AOP with the NOP</b>	<b>From:</b> 01/01/2015	<b>By:</b> 31/12/2021
<b>Action by:</b>	<b>Airport Operators</b>		

<b>FCM05</b>	<b>Interactive Rolling NOP</b>
--------------	--------------------------------

<b>Description &amp; purpose:</b>	Linking AOP with NOP (Airport Business Trajectory and User Preferred Trajectory) will contribute in optimising both Network and Airport management. This will be achieved by timely and simultaneously updating AOP and NOP, providing Network and Airport Managers with a commonly updated, consistent and accurate Plan. The AOP is therefore the tool which provides/integrates the airport information into the Network (NOP). This is done by sharing information with NOP or by requesting information from the NOP. The AO will have to ensure that AOP core information is provided to the NOP and that change in information in the AOP with anticipated impact on the network is made available to the NOP according with the appropriate agreed quality of service.

<b>Finalisation criteria:</b>	1 - Integration of relevant AOP data for a specific airport into NOP 2 - The relevant NOP information is made available to the AOP		

<b>FCM05-NM12</b>	<b>Enhance the NM technical platform and services</b>	From: 01/09/2016	By: 31/12/2021
<b>Action by:</b>			
<b>Description &amp; purpose:</b>	The enhancement of NM's technical platform and services will address the following: - Extension of NM interfaces with new functional capabilities - Migration of the variety of interfaces it currently provides (CHMI variants, the NOP Portal) into a single, redesigned HMI for all users, fit for purpose and flexible enough to meet the needs of the different user roles (both internal and external). - system upgrades for enhanced planning process ( integration of planning tool, tools to support collaborative dynamic planning, simulation tools) - enhancements of post-analysis tools and process - support the needs in terms of user interfaces for other NM projects		
<b>Supporting material(s):</b>	SJU - SESAR Solution 20: Data Pack for initial collaborative Network Operations Plan (NOP) Url : <a href="https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop">https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop</a>		
<b>Finalisation criteria:</b>	1 - NM technical platform and services have been upgraded		

<b>FCM05-NM13</b>	<b>Implement ATFCM procedures</b>	From: 01/09/2016	By: 31/12/2021
<b>Action by:</b>	<b>NM</b>		
<b>Description &amp; purpose:</b>	The SLoA addresses the definition, validation and deployment of the new/changed operational procedures pertinent to the NM system changes, including FCM procedures for redesigned NM HMI as well as procedures related to post OPS analysis process.		
<b>Supporting material(s):</b>	EUROCONTROL - NOP Portal User Guide - Edition 21.5-119 Url : <a href="https://www.eurocontrol.int/sites/default/files/content/documents/nm/network-operations/user-guides/nop-portal-user-guide-current.pdf">https://www.eurocontrol.int/sites/default/files/content/documents/nm/network-operations/user-guides/nop-portal-user-guide-current.pdf</a> SJU - SESAR Solution 20: Data Pack for initial collaborative Network Operations Plan (NOP) Url : <a href="https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop">https://www.sesarju.eu/sesar-solutions/initial-collaborative-network-operations-plan-nop</a>		

<b>FCM05</b>	<b>Interactive Rolling NOP</b>
--------------	--------------------------------

<b>ATM Master Plan relationship:</b>	<a href="#">[PRO-035]-FCM Procedures for on-line access/update to the NOP and notification of updates</a>
<b>Finalisation criteria:</b>	1 - The procedures are in use
