

INF07 — Electronic Terrain and Obstacle Data (eTOD)

[Download Progress Report](#)

The operational capability dates given for this objective are not meant to replace, amend or modify in any way the deadline for implementation of the ICAO Annex 15/and PANS-AIM requirements for electronic terrain and obstacle data (TOD). The aim of this objective is to ensure that all States of the ECAC area provide the required TOD as soon as possible in line with the ICAO Annex 15/and PANS-AIM.

NOTE FOR MILITARY AUTHORITIES: It is the responsibility of each military authority to review this Objective IN ITS ENTIRETY and address each of the SLoAs that the military authority considers RELEVANT for itself. This has to be done on top and above of the review of "MIL" SLoAs which identify actions EXCLUSIVE to military authorities.

NOTE: EASA Opinion 02/2018 has been published on 08/3/2018 and the amended Regulation 2017/373 (Part-AIS) is envisaged to be published in the OJEU in the second half of 2019, replacing EU Regulation 73/2010.

Edition	2019
Stakeholders	Regulator / Air Navigation Service Provider / Airport Operator
Type	SESAR
Scope	ECAC+
Status	Active

Operating Environments

Airport
Terminal Airspace

Expected Performance Benefits

Safety	The availability of quality-assured electronic terrain and obstacle data from the State's authoritative sources will significantly improve situational awareness with respect to terrain or obstacle hazards, separation assurance and the visualization of approaches in challenging terrain environments, and thereby contribute to increased safety levels and performance in airborne and ground-based systems (e.g. EGPWS, MSAW, APM, SVS, A-SMGCS and Instrument Procedure Design).
