SESAR Key Features: Advanced Air Traffic Services

Basic AMAN

Facilitator for:

PCP - S-AF1.1 AMAN Extended to En-Route

Sub-Functionality: Airspace (PCP)

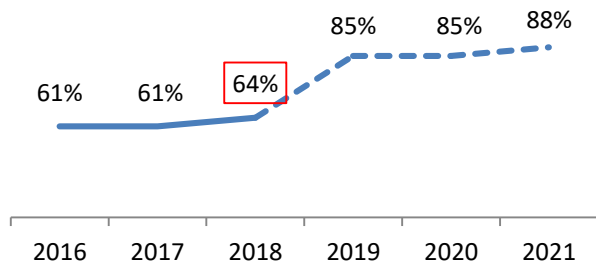

- AMAN/DMAN Integration Including Multiple Airports (OC)

ICAO ASBU: B0-RSEQ

OI Steps: TS-0102

Network Strategy Plan: SO4/1

Completion Rate Evolution (% of Airports completed the objective)

Main 2018 developments:

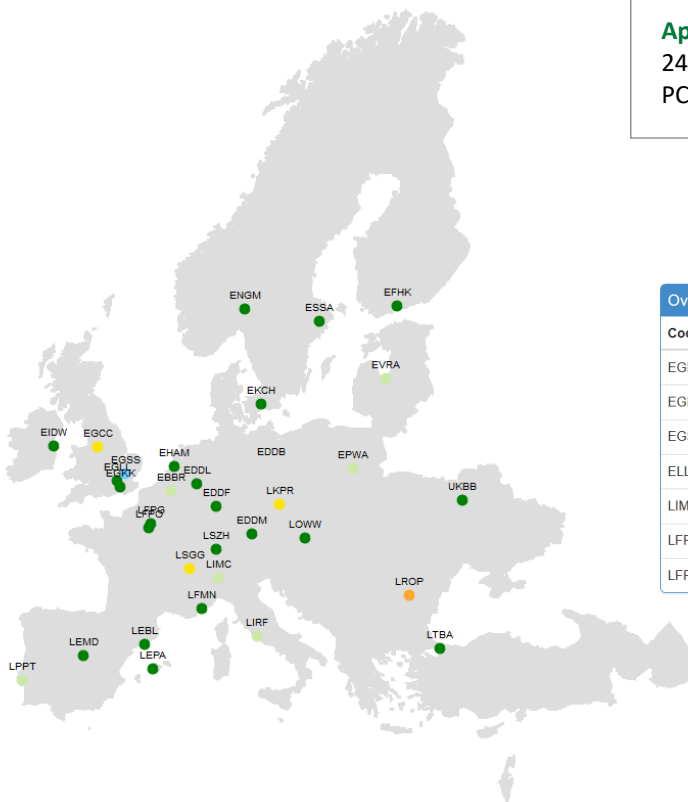

There are 32 airports in the applicability area of this objective (they were 20 in 2014).

Implementation of basic AMAN continues to progress, with one additional operational introduction (Vienna airport) with respect to 2017. Basic AMAN is deployed in 21 locations, while another 6 have works ongoing to meet the deadline of 12/2019 (Brussels, Milan Malpensa, Rome Fiumicino, Riga, Warsaw and Lisbon). Of these, the progress in 2018 varies from 24% to 67% in the completion of the required actions. Three (3) airports (Manchester, Geneva and Prague) are in the process of implementing this objective respectively in 2021, 2022 and 2023. Another airport (London Stansted) has plans to complete the implementation by the FOC date, but deployment actions had not yet started in 2018. Finally, Bucharest airport has not yet firm plans for implementing initial AMAN.

Legend	
Completed 21 (0)	<input checked="" type="checkbox"/>
Ongoing 6 (0)	<input checked="" type="checkbox"/>
Planned 1 (0)	<input checked="" type="checkbox"/>
